

## Amore Bay Hot Tubs Create Affordable San Diego Staycation Alternative

Like a suburban stalker, I have watched from my front window as various neighbors packed body boards in their SUVs and headed to the San Diego coast, or set off for a week at a Southern California mountain resort, or jetsetted to Las Vegas.

I admit it. I suffered from vacation envy.

But after spending a relaxing two-week vacation at home with my family &#8212; with no packing, no airport delays, and no backseat chants of "Are we there yet?" &#8212; I was refreshed. It was just the vacation I needed. I recommend it to anyone who sighs with that sad Sunday night feeling each weekend when its clear daily living requires more time and energy than a typical week can offer.

So what's my secret? I bought a hot tub from EasySpasOnline.com. And you know what's even better? Now I can enjoy a relaxing at home vacation or "staycation" anytime all year round!

When you think about it, a week at a destination spa or a 10-day, island vacation for two can cost more than \$10,000 when you include airfare. By turning your backyard into an eco-friendly "green" location that you can go to without security check points or crowded airplanes, then rejuvenation is just steps away whenever you want it. In essence you are creating a fun, inexpensive and carbon neutral getaway that's good for you and good for the planet.

News reports continue to highlight the new trend of people either foregoing vacations or creating backyard retreats they can visit anytime. (Sources: USA Today, MSNBC)

Owning a hot tub in San Diego is no longer considered a luxury in todays fast-paced world - it has almost become a necessity as an estimated 455,000 hot tub owners in San Diego can attest.

Maintaining a hot tub is not expensive either - with San Diego hot tub owners often saying that they pay less for chemicals, water and electricity than they anticipated. By using a well-fitted, insulated rigid safety cover, you can substantially reduce evaporation from your hot tub, which means reduced heating costs and less chemical usage, helping to keep costs down.

For less than the price of one expensive vacation, you too can experience a hot tub "staycation" in your own San Diego backyard every time you feel the need to get away. Owning a hot tub allows you to go on hundreds of little vacations a year.

San Diego Hot tub owners are saying that hot tubs are more affordable than a vacation, which always seem to end too fast! By purchasing a Dimension One Amore Bay Hot Tub from San Diego based Easy Spas Online you are investing in a vacation that you can take again and again!

With an Amore Bay hot tub, your staycation possibilities are endless!
